DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-15.

Group II. Claims 16-24.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a plurality of resonant circuit elements being configured to resonate at or near a carrier frequency of the transmitted signal; Invention I has separate utility such as coupling the first antenna and the second antenna to a surface of the communications device. See MPEP § 806.05(d).

3. A telephone call was made to Kevin L. Daffer on 10/07/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined (37 CFR 1.143).
